# Shubham Sharma

## Full-stack Developer

Driven full-stack developer with over 7 years of experience in creating responsive and visually appealing web and mobile applications. I have 6+ years of expertise in Webflow, Shopify, WordPress, HubSpot, Wix and Elementor. Proficient in various frontend and backend frameworks, I excel at developing optimized, high-performance websites & native/hybrid mobile applications, along with strong databases that ensures seamless user experiences. I have a proven track record of collaborating with cross-functional teams to deliver complex projects on time. Passionate about staying current with the latest technologies to create cutting-edge apps that exceed client expectations.
