Abhishek

Lead Software developer
Email: abhishek@aeologic.com

Objective

- Seeking a position to utilize my ability to work as a team member in a leading organization in the field of web development so as to achieve self-realization and accomplishment of organizational goals.

Summary

- 10+ years of professional experience as **Laravel full stack developer** in all phases of software development life cycle including requirements Analysis and Debugging, Applications Design, Development, Integration, Maintenance, Installation, etc.
- Extensively worked on responsive web pages, VueJs, Angular and ReactJs, Redux,NextJs.
- Good Experience in creating SPA using VueJs.
- Coding and scripting skills in Python.
- Experience in Python web frameworks: Django, Flask
- Having a good understanding of ORM libraries, databases, and SQL.
- Experience building serverless applications on AWS using technologies like Lambda, SQS, SNS, DynamoDB.
- Build application and database servers using AWS EC2 and create AMIS also using RDS.
- Developed web applications in DJango frameworks Model View Control (MVC) architecture.
- Experience in MVC PHP frameworks like Zend, Laravel, Symfony.
- JavaScript framework experience in NodeJS.
- Understanding of microservice architecture and RESTful API integration patterns
- Experience in RESTful API design and development
- Web application development experience using ReactJS, Redux, AngularJS, VueJS.
- Worked on REST API development and integrating REST API using security, tokens etc.
- Having experience in CSS customization, Cross browser compatibility, website responsiveness.
- Having good experience in ES5, ES6, Bootstrap customization,JQuery plugin customization.
- In depth experience of Google map API, Place API.
- Excellent interpersonal communication, analytical and problem solving skills.
- Extremely dedicated, Self-motivated, Pro-Active and willing to assume responsibility.
- Hands-on experience with public cloud offerings (e.g., AWS, GCP, AliCloud, etc.)
- Experience with server-side caching mechanisms (e.g., Redis, etc.)

- Experience with GIT-based source management (Stash, Bitbucket, etc.)

Areas of Expertise

- Mastery in the deployment of EC2 and other components in AWS.
- Experience in developing responsive web pages using bootstrap, optimized for desktop, mobile and tablets. Use of Media Query for creating responsive pages.
- Experience in Bootstrap customization, Material design customization, using HTML5, Bootstrap, Media Query, CSS3, ES6, Jquery. VueJs, Validating CSS validation Services.
- Debug, and refactor existing applications and software modules as required
- Write clean, modular web-based SaaS applications in an agile and ever changing environment
- Work with the Software Architect to understand coding standards and architectural practices.
- Experience with cloud computing technologies - AWS, and AliCloud.
- Comfortable using Unix-like OS e.g. Linux and/or MAC OS.
- Experience with Continuous Integration (CI) like Bamboo.
- Experience with the JIRA ticketing system.

Skillset

- **Web Applications Development Tools:** HTML/HTML5, CSS/CSS3, SAAS Javascript 6(ES6), JQuery, Angular, ReactJs, Redux, VueJs, Bootstrap
- **Back-end:** Laravel Framework, Django, Flask micro Framework, ExpressJs, Sails Framework
- **Version control:** GIT, SVN
- **Cloud Platform**: AWS, GCP, AliCloud
- **Databases:** MySQL, MSSQL, MongoDB, Postgresql,SQLLite
- **No-SQL**: Redis
- **Tools:** VScode, Sublime Text, Eclipse, Webstorm, PHPStorm
- **Operating System:** Windows family, Linux, Mac OS

Recent Projects:

URL: https://www.vans.com/custom-shoes.html
Domain: E-commerce **Tools:** Sublime,VS Code, Webstorm **Technologies:** VueJS, ReactJS, **Laravel Framework**, MySQL, AWS Services, AliCloud services, Atlassian Bamboo for deployment, Atlassian Stash for version control, Atlassian Conference for SOPs and Wiki pa **My Role:** As a production support L2 team member. Investigate and resolve any production issues. Manages

Production deployment on different platforms like AWS and Alicloud. Writing automation scripts for various tasks and report generation. It uses Lambda, SQS, SNS, AWS Secret manager and EC2 instances and AMIs.

Domain: IT/Software
Tools: Sublime , PHPstorm
Technologies: Laravel Framework, FontAwesome, JavaScript, jQuery, HTML, Bootstrap, Google Maps.
My Role: Develop using custom MVC framework, Bootstrap, CSS, and JQuery, Highcharts, and Google Map is implemented on dashboard.

Credentials

- **Masters in computer application (2014)**

Employment details

- **Software developer in Successive Software Pvt Ltd (2014-2018)**
- **Senior Software developer in Aeologic Technologies Pvt Ltd (2018-2022)**
- **Lead Software developer in Aeologic Technologies Pvt Ltd (2022-till date)**

Detailed Work experience:

- 10+ years of Experience in Laravel & designing User Interface (UI) applications and professional web applications using Python, NodeJS, PHP, JSON, Bootstrap, Responsive Designing.
- Deep understanding of writing, running, maintaining, and debugging Python Web applications.
- Experienced with VueJs, React JS and Redux architecture.

- Experienced in developing web pages using HTML/HTML5, CSS/CSS3, JavaScript, VueJs, React JS, Redux, AngularJS, JQuery, Bootstrap, NodeJS, Ajax.
- Have experience with using Python frameworks to interact with Mysql DB.
- Working with React Router for SPA's application development.
- Understanding of relational databases, NoSQL, REST Endpoints.
- Experience with developing and architecting on AWS, and AliCloud.
- Develop, review, integrate, extend and operate various cloud services on different layers in different languages such as NodeJS. & JavaScript
- Experience in the development of React components. Worked with Axios & VueJs, ReactJs for AJAX Calls making. Built a webpack-dev-server.
- Sound Understanding and good Experience with Object Oriented Programming and Implementation.
- Good Experience working with High Traffic Websites.
- Proficient in database development: MYSQL, Postgresql,MongoDB.
- Possess excellent communication and ProblemSolving skills and the ability to work as a team member, as well as independently.
- Experience working with a wide range of applications in all phases.
- Known for the ability to multitask and work on different applications at the same time.
- Highly experienced with using Firebug for Mozilla, Developer Toolbar for Chrome.
- Worked on IDE like Webstorm, PHPstorm, Sublime Text, ATOM, Microsoft Visual Code.
- Integrated third party library like live chat, Google Map, Highcharts
- Proficient in Google Map for showing markers, Pop up and customization of fonts and pop up.
- Integrated javascript plugin like slider, pop up window, color animation
- Integrated weather API using REST service
- Exposure of Font awesome, Google fonts, Google material design
- Integrated Google analytics in different projects.
