KIRAN KUMAR METTA

Certified Boomi Developer
+91-9717212612
kumarmskiran9@gmail.com

PROFESSIONAL SUMMARY

Experienced and certified Boomi Integration Developer with 4.7 years of professional IT experience, including 4+ years in cloud integration using Boomi. Proven expertise in designing, developing, and deploying scalable integration solutions. Proficient in utilizing Boomi connectors, REST/SOAP APIs, data mapping, error handling, and API management. Strong ability to collaborate with cross-functional teams, translate business requirements into technical solutions, and deliver robust integrations that enhance operational efficiency.

EXPERIENCE

- Worked on different Dell Boomi connectors like **Disk, FTP, Mail, Salesforce, Database, Web Services SOAP Client, HTTP Client, Web Services Server, Atom Queue and API management.**
- Experience in developing processes as per requirement using different **connectors, Set Properties, Flow Control, Decision, Business Rules, Try/Catch, Data Process, Document Cache, Route and Map shapes.**
- Worked for different formats like **XML, CSV, Database and JSON.**
- Successfully designed and delivered Dell Boomi integrations.
- Familiar with REST and SOAP based web services (APIs).
- Experience in implementing **REST/SOAP** services in Boomi.
- Knowledge in using **SOAP UI, POSTMAN** tools.
- Good understanding of various Boomi profiles and connectors.
- Designed and configured extensions for connector components.
- Knowledge on **EDI, XML, JSON, SQL, SOAP, REST, WSDL, Java & Groovy scripts**.
- Exposure on Process properties, Document properties, Dynamic process properties, Process Routes, Cross reference Tables, process call etc.
- High level exception handling in process.
- Developed the **Database/Flat-file/JSON/XML profiles, Boomi Mappings,** Processes using with different connectors/shapes and logic shapes between the application profiles.
- Translate business processes and requirements into technical process integration requirements and designs.
- Atom Health Check and continuous monitoring of process executions to find space for any improvements and involved in **Production support**.
- Involved in frequent client interactions in gathering requirements and implementing functionality.

CORE SKILLS

Boomi Integration & API Management Cloud
Platforms: AWS, Azure
Data Formats: XML, JSON, CSV
Integration Design: REST/SOAP APIs, Event Streams
Connectors: Disk, FTP, SFTP, Mail, Salesforce, Database, Web Services, HTTP
Tools: Postman, SOAP UI
Technologies: SQL, EDI, Groovy, JavaScript

PROJECTS

3 Nextera | July 2024 – June 2025
Senior Software Engineer

- Creating, managing, and deploying Boomi processes
- Gathering the requirements from the business teams & understanding of business documents.
- Implemented common logics for exception handling and Mapping logics.
- Components like Try/Catch, Email connector.
- Created the UIT, SIT documents, and Created Test case Scenarios.
- Involved in Deployments.
- Provide post production support.
- Participate in daily customer status calls and day to day customer interaction
- Completely monitoring all the deployed integrations and maintaining Tracker for failed integrations.

2 HNL LABS| Jun 2022 – May 2024
Software Engineer

- Designed and implemented Boomi processes using connectors (Disk, FTP, SFTP, Salesforce, Mail, HTTP, SOAP).
- Developed integrations using Flow Control, Decision, Business Rules, Try/Catch, and Map shapes.
- Created real-time and scheduled integrations for seamless data sync between systems (Salesforce, Database).
- Built REST/SOAP APIs using Boomi API Management; ensured secure access using OAuth 2.0.
- Managed API lifecycle: creation, deployment, versioning, and monitoring.
- Monitored execution logs, handled exceptions, and triggered alerting via Mail connector.
- Conducted performance optimization and regular Atom Health Checks.
- Involved in code reviews, process improvements, and production support.

1 AXA XL CATALIN | Aug 2021 – Mar 2022
Software Engineer

- Developed and maintained Boomi integration processes for enterprise data synchronization.
- Built complex data transformation maps and implemented business logic using Groovy scripting.
- Implemented Boomi Event Streams for real-time data flow.
- Designed extensions and used dynamic process properties for configuration flexibility.
- Worked closely with stakeholders to gather requirements and translate them into technical designs.
- Conducted unit testing, bug fixing, and participated in deployment cycles.

PROFESSIONAL EXPERIENCE

Millennium Intech Pvt Ltd (FROM 10-01-2021 TO 04-06-2025)

LTIMindtree (FROM 30-06-2025 TO PRESENT)

CERTIFICATIONS

Boomi Associate Developer Certification

Boomi Professional Developer Certification

Boomi API Management Certification

PROFESSIONAL DEVELOPMENT

- Participated in workshops on API Management, Event Stream Processing, and Cloud Integration.
- Continuously upgrading skills with the latest updates in Boomi, cloud platforms, and integration best practices.

EDUCATION

B.Tech in Textile Engineering
Indian Institute of Technology (IIT), Delhi
