Kandikattu Santhosh

Professional Summary

IT Professional with 6.6 years of total experience, including 5.5 years of extensive hands-on experience in Dell Boomi Integration Platform (iPaaS). Proficient in Analysis, Design, Development, Testing, and Deployment of complex integration solutions. Skilled in integrating diverse enterprise systems such as SAP, Salesforce, SuccessFactors, Databases, and REST/SOAP APIs. Experienced in end-to-end delivery from requirement gathering to production support with strong analytical and problem-solving skills. Excellent communication, leadership, and team coordination capabilities.

Technical Skills

• Dell Boomi (AtomSphere), API Management, Process Building, Data Integration, Web Services (SOAP/REST)
• Mulesoft Anypoint Platform, DataWeave, XML, JSON, JavaScript, SQL Server, MySQL
• Dell Boomi Connectors: SAP, Salesforce, SuccessFactors, FTP, Disk, HTTP Client, Database, Mail
• Integration Patterns: Batch Processing, Error Handling, Sub-Processes, Real-Time Integrations
• Tools: Postman, SOAP UI, Advanced REST Client, Git, JIRA, Confluence
• Domain Knowledge: Healthcare (HIPAA EDI 834, 837), Logistics, and Retail

Professional Experience

- **CitiusTech** – Dell Boomi Developer (Jan 2024 – June 2024)

• Developed and deployed end-to-end integration processes using Dell Boomi AtomSphere.
• Designed and optimized Boomi processes with reusable components, sub-processes, and dynamic properties.
• Implemented error handling, pagination, and document caching to improve performance.
• Integrated SAP, Salesforce, SFTP, and Database systems for healthcare data exchange.

- **CitiusTech** – Mulesoft Developer (Apr 2024 – Oct 2024)

• Designed and implemented MuleSoft integrations for EDI 834 and 837 transactions under HIPAA guidelines.
• Configured APIs for healthcare data exchange using Anypoint Studio and Platform.
• Worked on system testing, deployments, and post-implementation support.

- **Robert Bosch** – Dell Boomi Developer (Dec 2023 – Mar 2024)

• Developed multiple integration flows using Dell Boomi for logistics and transportation systems.

• Created and maintained Boomi connectors (Salesforce, HTTP, SOAP, SFTP) and configured process extensions.
• Participated in migration, go-live, and post-production support activities.

- **Wipro** – Dell Boomi Developer (Feb 2021 – Dec 2023)

• Designed, developed, and deployed complex integrations for warehouse and logistics systems.
• Implemented environment extensions and automated scheduling of processes.
• Worked on data formats like XML, JSON, and CSV for seamless application integration.

- **OSI** – Dell Boomi Developer (Sep 2019 – Nov 2020)

• Involved in requirement gathering, development, and testing of integration flows.
• Implemented fault handling, email notifications, and performance tuning for Boomi processes.

- **BIBO Tech** – Test Engineer (Apr 2019 – Aug 2019)

• Reviewed and analyzed test results ensuring software quality.
• Collaborated with cross-functional teams and provided feedback on functional requirements.

Education & Certifications

• Bachelor of Science – Krishna Chaitanya College, India (2019)
• Dell Boomi Associate Developer – Dell Corporation
• Dell Boomi Professional Developer – Dell Corporation
• Dell Boomi API Management Certified – Dell Corporation
