## Jo Objective

Seeking long term employment in an organization for growth of my company and my professional growth, further enhance my skills, knowledge and experience to face and overcome the challenges of today's changing work environment.

## Professional Summary

Full Stack Developer with **5.5+ years of hands-on experience** specializing in the **MERN Stack (MongoDB, Express.js, React.js, Node.js)**. Proven track record of building high-performance web applications and backend systems with a focus on scalability, security, and user experience. Experienced in collaborating on digital transformation initiatives with government agencies. Strong skills in debugging, developing RESTful APIs, implementing real-time features, and delivering robust, maintainable code.

---

## Technical Skills

- **Languages**: JavaScript, Core Java, C (basic)
- **Frontend**: React.js, HTML, CSS, Redux
- **Backend**: Node.js, Express.js
- **Database**: MongoDB (NoSQL), Mongoose
- **Tools**: Git, Postman, Chrome DevTools, Visual Studio Code, GitLab CI/CD
- **Concepts**: REST APIs, JWT Authentication, AWS

---

## Professional Experience

**Senior Software Engineer**
**Rezler Systems Pvt Ltd | Bangalore, India**
*Oct 2019 – Mar 2025 *

- Developed scalable full-stack web applications using the MERN stack, enhancing performance by 30%.
- Designed and maintained RESTful APIs and integrated third-party services including SMS, GPS tracking, and facial recognition.
- Led development of secure authentication systems using JWT.

- Played a key role in multiple government tech initiatives, including real-time police patrol monitoring platforms.
- Optimized React components to reduce load time by 40%, enhancing user experience.
- Managed code versioning and collaboration through Git and GitLab, contributing to CI/CD pipelines.

---

**Key Projects**

**Leave Management System**

Technologies: Node.js, React.js, MongoDB

- Developed scalable full-stack web application using the MERN stack, enhancing performance by 30%.
- Designed and maintained RESTful APIs
- Optimized React components to reduce load time by 40%, enhancing user experience.
- Managed code versioning and collaboration through Git and GitLab, contributing to CI/CD pipelines.
- Co-ordinate with team for assignment of modules and related issues.
- Work towards deadlines and prioritizing workload.

**Subhahu Beat & Subhahu Admin**

*Client: Indian Police Department*
Technologies: Node.js, React.js, MongoDB

- Built and deployed features like officer tracking, image uploads, and live GPS updates.
- Developed admin dashboards for higher authorities to monitor field activities.
- Resulted in streamlined reporting and 50% time reduction in manual documentation.
  Website | Android App

**Civil Police Warden**

*Client: Indian Police Department*
Technologies: Node.js, React.js, MongoDB

- Developed the backend architecture and web interface for volunteer management during COVID-19.
- Ensured secure data flow and real-time monitoring of volunteer assignments.
- Played a critical role in the platform's launch during emergency operations.

---

## Education

**Bachelor of Engineering (B.E.) – Information Science and Engineering**
Rajeev Institute of Technology, Hassan | Visvesvaraya Technological University
**Percentage**: 63% | **Graduated**: 2017

---

## Certifications

- Certified in "Java and Software Testing"
- Project: "Cloud Based System for Monitoring, Examining Soil and Atmospheric Condition in Farmland" – Loginware Softtec Pvt Ltd
- Course completion certificate on "Node with React:full stack web development" involving frontend and backend technologies from Udemy

---

## Awards

- **Spot Award** for impactful development of "Civil Police Warden" project at Rezler Systems
- Honored by **Bengaluru Police Commissioner** for contributions to public safety tech platforms

---

## Personal Details

- **Date of Birth**: 27 Sep 1995
- **Marital Status**: Married
- **Languages Known**: English, Kannada, Hindi
- **Passport**: S8402729 (Valid till 12-Nov-2028)
