Manisha P.

Senior Software Developer

Professional Summary

Highly skilled Senior Software Developer with over **7+ years** of experience in designing, developing, and optimizing robust web applications. Proficient in **.NET Core, ASP.NET MVC, C#, ReactJS, TypeScript, SQL, and Azure** with a strong grasp of **software architecture, and cloud computing**. Proven ability to lead teams, improve system performance, and implement scalable solutions. Passionate about clean code, best practices, and delivering high-quality software solutions.

Technical Skills

- **Languages & Frameworks:** C#, .NET Core, ASP.NET MVC, Web API, Entity Framework Core, Dapper, LINQ, Microservices, xUnit.
- **Frontend Technologies:** ReactJS, Angular, TypeScript, JavaScript, jQuery, HTML, CSS, Bootstrap, AJAX.
- **Cloud & DevOps:** Microsoft Azure, Azure DevOps, Azure App Services, AWS, Blob Storage, Azure Functions.
- **Database Management:** SQL Server, MongoDB (NOSQL), MySQL, Cosmos DB, PostgreSQL.
- **Tools & Platforms:** Git, JIRA, Visual Studio, Postman.
- **Architectural Patterns:** Repository Pattern, Unit of Work, Dependency Injection, Design Patterns.

Projects & Contributions

GoolGoal App
Tech stack: .NET Core 6.0, IdentityServer 4, SQL Server, Dapper
Contributions: Implemented real-time Football APIs, developed secure authentication with IdentityServer4, and optimized database queries for faster processing.

Orisuun
Tech stack: .NET Core 8.0, C#, ReactJS, Azure Cloud, Stripe Payment Gateway
Contributions: Integrated Stripe Payment Gateway, developed an admin dashboard, and deployed the solution on Azure Cloud using Azure App Services.

Ephylink
Tech stack: .NET Core 7.0, ReactJS, SQL Server, Azure Blob Storage
Contributions: Designed a secure user management system, implemented Azure Blob Storage for document handling, and developed an interactive booking calendar.

Branchdesk
Tech stack: .NET Core API, ReactJS, MS SQL, Azure DevOps
Contributions: Designed the database architecture, built reusable React components, and implemented multi-tenancy support.

Moon Stride
Tech stack: ASP.NET Web Forms, C#, Entity Framework
Contributions: Integrated SmartyStreet API, optimized database performance, and developed a user-friendly booking system.

Education

- **Master of Computer Applications (MCA)**

Gujarat Technological University, CP Institute, Ahmedabad (2015 – 2017) | **79.66%**

- **Bachelor of Computer Applications (BCA)**
  Gujarat University, Lokmanya College, Ahmedabad (2012 – 2015) | **63.92%**
