Professional Summary

Senior React Native Developer with 8+ years of experience in building and deploying high-performance mobile applications for Android and iOS. Skilled in React Native, TypeScript, Redux, and REST API integration. Adept at optimizing UI performance, implementing responsive interfaces, and delivering smooth mobile experiences. Experienced in integrating Firebase, push notifications, and native modules. Strong foundation in full-stack development with Node.js and cloud deployment.

Core Competencies

Frontend & Mobile: React Native, React.js, TypeScript, Redux, Tailwind CSS, MUI, Styled Components
Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, Firebase
Mobile Tools: Android Studio, Xcode, Fastlane, App Center
Databases: MongoDB, PostgreSQL, Firebase Realtime DB
Version Control & DevOps: Git, GitHub Actions, Docker (basic), CI/CD pipelines

---

Highlighted Projects

1. Dronna Gaming (Cross-Platform Mobile App)
React Native | TypeScript | Redux | REST APIs | Firebase

- Built a real-time gaming dashboard for Android & iOS with leaderboard and wallet modules.
- Integrated REST APIs and Firebase Cloud Messaging for live notifications.
- Optimized UI rendering and animations for consistent 60 FPS performance.

2. HealthTrack+ (Wellness Mobile App)
React Native | Node.js | MongoDB | Firebase

- Developed a health-tracking mobile app with offline data sync and notification reminders.
- Implemented user authentication with JWT and Google OAuth.
- Designed modular UI components for charts, fitness goals, and progress reports.

3. ERPbynet Complaints (Enterprise Mobile App)
React Native | Redux | REST API Integration

- Built complaint logging and tracking modules for ERP users.
- Integrated push notifications and offline data caching.
- Delivered on both iOS and Android via App Center.

Professional Experience

Staff Engineer | Nagarro
July 2025 – Present

- Leading backend and frontend teams on enterprise-scale projects with a mobile-first approach.
- Architecting APIs, integrating with React Native apps, and improving CI/CD automation.
- Mentoring developers and ensuring consistency in mobile app architecture.

Software Developer | Vissol Vassutech Pvt. Ltd.
Feb 2023 – July 2025

- Delivered React Native modules for mobile analytics and notifications.
- Integrated RESTful APIs and Firebase Cloud Messaging.
- Improved load times by 30% through lazy loading and performance profiling.

Full Stack Developer | TwinsSet Pvt. Ltd.
Apr 2022 – Jan 2023

- Built hybrid React Native & React.js modules for business intelligence dashboards.
- Implemented Redux store management and real-time synchronization.

Web Developer | Techcospace Pvt. Ltd.
May 2018 – Jan 2021

- Created responsive UIs and reusable mobile components.
- Collaborated with designers to ensure cross-platform consistency.

Education & Certifications

- B.Tech in Electrical Engineering, Krishna Institute of Engineering & Technology, Ghaziabad
- Full Stack Web Development with Node.js and React – Udemy
- React Native - Advanced Concepts & App Deployment – Udemy
- Docker & Kubernetes: The Complete Guide – Udemy

Soft Skills

System Design • Clean Code Practices • Mobile Performance Optimization • Team Collaboration • Agile Development
