Professional Summary

Adaptable and solution-focused **Staff Engineer** with 8+ years of experience building **scalable, cloud-native web applications** using **Python, Node.js, React.js, and Next.js**. Proficient in **microservices architecture**, **API design**, and **DevOps automation** with Docker, Kubernetes, and GitHub Actions. Strong background in **system design, performance tuning, and secure deployments** across AWS and Azure. Adept at leading cross-functional teams and delivering reliable, maintainable, and high-performing products from architecture to production.

Core Competencies

Backend: Python, Typescript, Node.js, Express.js, NestJS, GraphQL, gRPC, REST APIs
Frontend: React.js, Next.js, TypeScript, Redux, Tailwind CSS, MUI, Bootstrap
Databases: PostgreSQL, MongoDB, MySQL, Redis
DevOps & Cloud: Docker, Kubernetes, Helm, GitHub Actions, Terraform, Nginx, AWS, Azure
Observability: Prometheus, Grafana, ELK Stack
Testing & Tools: Cypress, Jest, Go test, Swagger, Postman, Git

---

Professional Experience

Staff Engineer | Nagarro

July 2025 – Present | Noida, India

- Leading backend development of **microservice-based systems** in **Python and Node.js**.
- Architecting **scalable APIs** and integrating enterprise-grade **CI/CD pipelines** using **GitHub Actions, Docker, and Kubernetes**.
- Optimizing system performance and reliability across **AWS and Azure environments**.
- Collaborating with cross-functional teams to implement **security, observability, and resilience patterns**.
- Contributing to **code reviews, mentoring developers**, and improving team productivity through clean-code and DevOps best practices.

Software Developer | Vissol Vassutech Pvt. Ltd.

Feb 2023 – July 2025

- Designed and deployed **GraphQL APIs and microservices** in Node.js for high-traffic products.

- Improved **API response time by 35%** through caching (Redis) and query optimization (PostgreSQL).
- Built **Azure AKS deployments** via Docker + Helm with automated Terraform pipelines.
- Implemented centralized **log monitoring and alerts** to ensure 99.9% service uptime.

Full Stack Developer (MERN + Python) | TwinsSet Pvt. Ltd.

Apr 2022 – Jan 2023

- Developed hybrid backend modules using **Node.js and Python** for analytics dashboards.
- Enhanced React.js UI with RBAC authentication and route-level controls.
- Built automated tests (Cypress, Jest) and CI/CD pipelines via GitHub Actions.

MERN Stack Developer | QwertyCode Pvt. Ltd.

Jan 2021 – Apr 2022

- Built SaaS CRM features for onboarding and reporting using MERN stack.
- Migrated legacy APIs to RESTful services and optimized MongoDB queries.
- Integrated Stripe & SendGrid APIs and automated async job processing queues.

Web Developer (MERN) | Techcospace Pvt. Ltd.

May 2018 – Jan 2021

- Developed internal HR and inventory tools using React and Express.js.
- Implemented audit logging and reporting modules with MongoDB.
- Created reusable UI components and responsive layouts.

Education & Certifications

- **B.Tech in Electrical Engineering**, Krishna Institute of Engineering & Technology, Ghaziabad
- **Go Programming Language – Udemy**
- **Full Stack Web Development with Node.js and React – Udemy**
- **Docker & Kubernetes: The Complete Guide – Udemy**

Soft Skills

System Design • Clean Code Practices • Team Leadership • Agile Workflows • Problem Solving
