# Praful Patil

Software Test Engineer | Automation & Manual Testing | Accessibility & API Testing

## Professional Summary

Software Test Engineer with 6 years of experience in Automation and Manual Testing across Travel, Healthcare and E-commerce domains. Proficient in Functional, Regression, Accessibility, UI, Mobile, API, and Database testing. Skilled in Selenium WebDriver, Java, TestNG, BDD, Cucumber, and Maven with hands-on experience in Agile methodologies, CI/CD pipelines, and hybrid frameworks. Recognized for ensuring software quality, process improvements, and effective cross-team collaboration.

## Key Skills

- **Testing:** Functional, Regression, Sanity, Accessibility (WCAG, NVDA, AXE), Cross-browser, UI, Mobile
- **Automation:** Selenium WebDriver with Java, TestNG, Maven, Jenkins, Allure Reports
- **API & Database Testing:** Postman, SOAPUI, Kibana, MySQL
- **Frameworks:** Page Object Model (POM), Hybrid Frameworks, BDD, Cucumber
- **Project Tools:** Jira, Agile/Scrum methodology
- **Core Strengths**: Analytical skills, quick learner, effective communicator, team collaboration

## Professional Experience

Project 1: Chase Travel

- Analyzed requirements and designed comprehensive test scenarios with automation scope.
- Developed and executed automation scripts using Selenium (POM & TestNG).
- Conducted Functional, Regression, Sanity, Accessibility, API, and Mobile testing.
- Validated API logs using Postman/Kibana and verified consistency with UI.
- Managed test cases in Jira and executed regression suites via Jenkins with Allure reporting.

Project 2: MetLife

- Collaborated with stakeholders to understand requirements and prepare test cases.
- Performed Functional, Sanity, and Regression testing on web and mobile applications.
- Automated test cases using Selenium (Hybrid framework).
- Ensured timely defect reporting and resolution using Jira.

Project 3: MedicsPremier

- Designed and executed manual test cases for healthcare applications.
- Conducted API, UI, and database testing using Postman and SQL queries.
- Documented test cases and reports to support release activities.

Project 4: Vendor Vista

- Executed manual testing for enterprise applications.
- Conducted API, UI, and database testing using Postman and SQL queries.
- Ensured timely defect reporting and resolution using Jira.

## Education

Bachelor of Engineering (B.E.)

Technical Proficiency

- Languages: Java, SQL
- Testing Tools: Selenium WebDriver, Jira, NVDA, AXE, BrowserStack
- Databases: MySQL
- APIs & Web Services: Postman, SOAPUI, Kibana
- Operating Systems: Windows, Android, iOS

## Career Objective

To contribute as a Software Test Engineer by leveraging my expertise in automation and quality assurance, ensuring delivery of high-quality software products, while continuing to learn and grow within a progressive organization.
