About me:

- Tech professional with 6 years of experience, blending deep curiosity with practical impact. Seeking a dynamic, growth-oriented environment to apply my skills and continue learning.

EMPLOYMENT: 3

Consultant **Capgemini Ltd** **Apr 2024 - Present**

- Led the **backend** development of a modern fleet management system as part of **GE Aerospace's** initiative to replace the legacy IFS Asset Management, architecting scalable/optimised **microservices** in **Go** with clean code practices and thorough unit/integration testing.
- Built and maintained cloud-native backend services on **AWS**, utilising **Lambda**, **SQS**, **RDS**, **EC2** and **S3** ensuring high availability, performance, and maintainability in a production-grade environment.
- Collaborated with product and QA teams to define business requirements, implement core backend logic, and ensure feature completeness and performance benchmarks were met during the transition from the legacy IFS system.
- Played a key role in **hiring** and interviewing candidates for GE Aerospace.

EMPLOYMENT: 2

Software Developer **VuNet Systems Pvt Ltd** **Aug 2021 - Apr 2024**

- Engineered and **scaled** a Go based SNMP data collection system by customising Telegraf, replacing a legacy Python solution in production, and enabling reliable monitoring for **120K+** network devices, significantly enhancing observability and performance.
- Developed **vuBlock**, an internal **metrics orchestration platform** that automates config generation, agent deployment, and lifecycle management—streamlining telemetry collection across diverse systems. Delivered **Datadog-like observability capabilities**, enabling seamless monitoring and data analysis for a broad range of applications and services.
- Contributed significantly in **system design** tasks **& code reviews**.

EMPLOYMENT: 1

System Engineer **Tata Consultancy Services Ltd** **Jun 2019 - Aug 2021**

- Developed service APIs within **Cisco DNAC Solutions Team**, enhancing device and site management.
- Executed backend development using **Core Java** and **MongoDB**.
- Contributed to end-to-end software lifecycle, from requirements to testing.

Languages and Technologies

- Programming Languages : **Go (Golang), Python, Java**
- Databases & Data Stores. : **PostgreSQL, Elasticsearch, MongoDB**
- Version Control Systems. : **Git (GitHub, Bitbucket)**
- Frameworks & Libraries. : **Go-kit (Gokit), GORM**, **SQLX**, **Testify**
- DevOps & Infrastructure. : **AWS, Docker, Kubernetes, Linux**
- Messaging & Streaming. : **Apache Kafka , SQS**
- Monitoring & Logging. : **Kibana (ELK stack), basic Grafana exposure**

Education

Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal, M.P
B.E. | Oriental College of Technology | Computer Science and Engineering
CGPA: 7.06/10 | May 2019

Madhya Pradesh Board of Secondary Education
Class 12th | Bright Convent H.S School
72% | Apr 2015
