OBJECTIVES

To grow in career, be job satisfied, and excel in a job that achieves personal as well as organizational goals.

KEY SKILLS

C++, Python, Golang
Data Structures and Algorithms
Object Oriented Programming
Distributed Systems
PostgresSql, MySql
Docker and Kubernetes
gRPC, Microservices
cherrypy, falcon, pytest,
Git, Bitbucket, Gitlab
VSCode, Goland
Linux

AWARDS

Spot Award
Q3 FY23-24
Outstanding Achievement
Q2 FY22-23

PUBLICATION

An Arduino based Gesture Control System for Human Computer Interface, ICCUBEA IEEE, 2019
Paper

EDUCATION

B.E. in Computer Science
Savitribai Phule Pune University
(7.8 CGPA)
2015 – 2019

12th in Maharashtra State Board (82%)

10th in Maharashtra State Board (89%)

EXTRA CURRICULAR

Content Writing Intern
WhitePanda, 2019

Editor in Chief, CyberTimes

Software Engineer

Druva Data Solutions

Software Engineer-3 */ Pune, IN / Apr 2024 – Present*

- Developing a new priority based, feedback driven scheduler from scratch.
- Single handedly wrote Go-sdk for a platform service.
- Worked on identification and compaction of stale data with optimal resources consumption.
- Found critical insights/bugs into the system by performance/chaos testing of the platform service.

Software Engineer-2 */ Pune, IN / Oct 2022 – Mar 2024*

- Involved in developing a new platform service from scratch. Worked throughout the SDLC of multiple features.
- Early identified and fixed crucial code paths affecting finite-state-machine which could lead to race conditions in a distributed system.
- Go-to person in the team, and point of contact for consumer onboarding, escalation handling, etc.
- Redesigned and Optimized crucial code paths for COGS gains upto $50K+/month
- Worked on identifying and compaction of S3/DynamoDB data
- Setup UT/CT framework from ground up reaching 80+% coverage
- Improved overall product quality – code contribution process, best practices, setting alerts, metrics, swagger, documentation, etc

Software Engineer */ Pune, IN / May 2021 – Oct 2022*

- Lead and developed "Immutability" - a pillar of Druva Data Resiliency, $10M Guarantee program
- Enhanced backup/restore code flows for Microsoft and Google cloudapps
- Assisted in developing a new CLI utility for restoring AWS-S3 data
- Ensured quick remediation on customer escalations and bugs

Tech: **Python, Go, Docker, Microservices, MySQL, Distributed Systems, AWS -** S3/DynamoDB/SQS/SNS/etc

Aqua Security

Software Developer */ Hyderabad, IN / Sep 2019 – May 2021*

- Was a part of Core Product Team
- Extended multiple capabilities of the scanning-algorithm to generate additional revenue of $100K+
- Developed and delivered RFEs for Fortune 50 Companies
- Wrote automation scripts in pytest to maintain product quality

Tech: **Go, Python, Docker, Microservices, PostgreSql, gRPC**

Personal Projects

- E-Commerce Search Engine to give product suggestions by **web-scraping** websites, comparing price, and analyzing reviews all in **Python**.
- Game Development Mini-Projects using **Unity Engine** -
  Pac-Man Clone, Ping-Pong Game, Balloon Beach (infinite run game)
