GITESH YADAV
Senior Full Stack Developer – 4 Years 11 Months
Indore, MP, India · (+91) 79876 03237 · yadav7869028815@gmail.com
LinkedIn: https://www.linkedin.com/in/gitesh-yadav-9894231b7/

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 5 years of experience delivering scalable, high-performance web applications. Proficient in modern technologies including React.js, Next.js, Node.js, and MongoDB, with strong expertise in system design, REST/GraphQL APIs, CI/CD automation, and cloud services. Known for improving delivery pipelines, reducing technical debt, and bridging communication between technical and non-technical teams. Certified in System Design and React, with a proven ability to lead teams, optimize workflows, and ship user-focused features efficiently.

CERTIFICATIONS

- Grokking the Modern System Design Interview – Educative (2025) : https://www.educative.io/verify-certificate/lOn30BIPYEZpJv0BrCjk4rVAv2OBhM

- HLD & LLD system design certification - Udemy (2024) : ude.my/UC-b13042c3-ce96-47c1-9010-7faa1d00dd5b

- HackerRank certified React - HackerRank (2024): https://www.hackerrank.com/certificates/a010e3f3fb6d

SKILLS

Languages & Frameworks: JavaScript, TypeScript, Java, C++, Python, Golang
Frontend: React.js, Next.js, Redux, Vue.js, Bootstrap, React Native
Backend: Node.js, Express.js, GraphQL, REST APIs, Prisma, Sequelize
Databases: MongoDB, MySQL, Firebase
DevOps & Tools: Docker, GitHub, GitLab, Kubernetes, CI/CD, AWS, Azure, Heroku
Testing & Methodologies: TDD, Unit Testing, E2E Testing, Agile, Scrum
Other: System Design, Data Structures & Algorithms (DSA), Technical Documentation, Cross-functional Communication

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer

360 Degree Cloud Technologies - Noida, UP

Sep 2024 – Present

- Directed a team of 6+ entry-level developers, accelerating delivery timelines by 18% through clear task breakdowns and mentoring.
- Engineered scalable applications using React.js, Next.js, Node.js, and MongoDB, serving over 20K active users.
- Explained architectural and infrastructure decisions in simplified terms to non-technical stakeholders, ensuring alignment and faster approvals.
- Streamlined CI/CD workflows using GitLab and Docker, cutting release cycle times by 40% and reducing manual interventions.
- Reduced post-release defects by 30% by leading QA planning and embedding testing practices via TDD and E2E strategies.
- Authored onboarding guides and API documentation, helping non-technical product managers understand feature integration flows.
- Led weekly sync-ups with cross-functional teams, using diagrams and analogies to explain complex features and gain stakeholder buy-in.

- Key Projects:

- SkillCEF Portal – Built a certificate tracking and access-control system, collaborating closely with business analysts to translate compliance needs into technical deliverables.
- Purple Tutor – Integrated Stripe and implemented Firebase-based real-time dashboards; demonstrated the system to educators in simple, outcome-focused language.

Junior Software Developer

Cyber Infrastructure - Indore, MP

Jan 2022 – Aug 2024

- Built RESTful APIs to handle 1000+ requests per second; reduced response latency by 30%.
- Partnered with frontend and QA teams to roll out React/Next.js features, reducing handoff confusion through visual mockups and technical walkthroughs.
- Explained performance enhancements like useMemo and code-splitting to team leads and project managers without technical backgrounds.
- Led discussions on system bottlenecks using charts and simplified metrics, enabling faster prioritization of fixes.
- Documented APIs with Swagger and created Postman collections that helped non-dev teams test endpoints independently.

- Key Projects:

- Bookit – Built a seamless booking UI with React and Redux; gave a feature walkthrough to the sales team to aid client demos.
- AgroForce-TMG – Reduced data loading time by 50% through efficient querying and caching; results communicated clearly to field agents via demos.

Associate Software Developer

Tudip Technologies - Pune, Maharashtra

Jul 2020 – Dec 2021

- Designed 20+ responsive interfaces using React, Bootstrap, and Redux, tailored for both web and mobile platforms.
- Developed modular UI components with Next.js and Vue.js using MVVM principles, then documented usage for cross-team training.
- Increased GraphQL throughput by 5x and communicated the benefits using visual latency comparisons in stakeholder meetings.
- Refactored legacy code, explained proposed improvements to QA and non-technical product owners using impact-based storytelling.
- Created internal wikis and recorded demo sessions for smoother onboarding of new developers and testers.

- Key Projects:

- Makers Academy – Improved UX for rewards and loyalty systems; presented changes to the marketing team using clickable prototypes.
- Deployment Automation – Enabled smoother Heroku deployments; trained interns and ops teams through hands-on sessions and simplified guides.

EDUCATION

B.Tech – Computer Science & Engineering
IPS Academy, Indore — Graduated 2020

LANGUAGES

English – Professional Proficiency
Hindi – Native Proficiency
