SUMMARY

A competent professional with over 3 years of experience in the IT industry, focusing on full-stack web development while prioritizing the design of micro services and the creation of efficient APIs. Currently working as a Full Stack Software Developer at Docquity, tasked with designing scalable solutions and improving user experience by developing cutting-edge web applications.

WORK EXPERIENCE

DOCQUITY | FULL STACK SOFTWARE DEVELOPER — Gurgaon, India | 07/2022 – Present

Docquity Web Application

- Built scalable modules using microservices architecture, creating RESTful APIs with Springboot, Nest and Slim, integrated with Angular for responsive frontends, optimized with Redis caching.
- Deployed applications with Kubernetes and Jenkins, maintaining 99.9% uptime across production environments.
- Engineered gRPC clients for efficient communication across services, raising system reliability by 35%.
- Implemented WebSockets with Node.js for real-time features like chat during teleconsultations and live comments on webinars, leading to a 20% increase in user engagement.
- Automated push and email notifications with Python and SMTP, improving communication efficiency and reducing manual communication efforts by over 50%.
- Designed a robust Admin Panel using Angular and NGRX, reducing administrative effort by 33% and allowing better control of user and content management.
- Created a dedicated microservice for streaming services using the Gin framework in Go, utilizing wait groups and goroutines for high-performance processing boosting streaming efficiency by 25%
- Created a system for implementing user, corporation and country groups for tracking and managing relations and connections between various entities using Java Springboot and Neo4j.

Docquity User Stories

- Built modules in Springboot as part of a microservice for implementation of User Stories on the Docquity platform along with caching using Redis reducing API response time by 80%
- Led the development of an Admin Panel in Angular for managing User Stories, enabling faster onboarding of pharmaceutical partners and reducing setup time by 40%.
- Boosted operational efficiency by automating validation processes, reducing manual errors by 50% and administrative overhead.

DOCQUITY | SDE INTERNSHIP — Gurgaon, India | 01/2022 – 06/2022

- Developed an application using the Laravel framework to implement Promotional Codes on the DocquityClinic platform boosting user engagement by 35%.

SKILLS

Programming Languages	Java, Node.js, Python, JavaScript, C++
Frameworks	Angular, React, NestJS, Springboot, Laravel , Gin,
Databases	PostgreSQL, MongoDB, MySQL, Neo4j
Technologies	Jenkins, Kubernetes, Docker, AWS, Azure, Redis, Kafka, RabbitMQ
Unit Testing and Debugging	Jasmine, Junit

CERTIFICATIONS

MICROSOFT CERTIFIED: AZURE FUNDAMENTALS MICROSOFT
Credential ID: 5DE90021B7AC21F6

EDUCATION

SIKKIM MANIPAL INSTITUTE OF TECHNOLOGY | Bachelor of Technology in Computer Science and Engineering
GPA: 9.67 — Sikkim,India | Jun 2018 - Jun 2022
