Professional Summary

Blockchain Developer with over 6 years of experience in building decentralized applications, smart contracts, and blockchain infrastructure across Ethereum, Hyperledger Fabric, and Web3 ecosystems. Skilled in Solidity, smart contract auditing, and integrating blockchain with modern web stacks. Adept at deploying secure, scalable, and enterprise-grade blockchain systems with real-world utility.

Education

B.Tech in Electrical Engineering
Krishna Institute of Engineering and Technology, Ghaziabad
Graduated: 2015

Technical Skills

- **Blockchain Development**: Solidity, Web3.js, Hardhat, Truffle, Hyperledger Fabric, Ethereum, Smart Contracts, Chaincode
- **Decentralized Applications**: React.js, Next.js, IPFS, MetaMask, WalletConnect
- **Backend & API Integration**: Node.js, Express.js, GraphQL, REST APIs
- **Security & Protocols**: Cryptography, Token Standards (ERC-20, ERC-721), Gas Optimization
- **Databases**: MongoDB, PostgreSQL, Firebase
- **DevOps & Deployment**: Docker, Kubernetes, CI/CD (GitHub Actions, Jenkins), AWS, Azure
- **Programming Languages**: JavaScript, TypeScript, Go, Python

---

Professional Experience

Senior Blockchain Developer
Vissol Vassutech Pvt. Ltd. | Feb 2023 – Present

- Designed and deployed smart contracts using Solidity for DeFi and NFT applications.
- Built decentralized applications (dApps) integrated with MetaMask and Web3.js.
- Deployed blockchain nodes and managed infrastructure using Docker and Kubernetes on Azure.
- Developed blockchain APIs with Node.js and Express to interact with on-chain and off-chain data.

Blockchain Developer
TwinsSet Pvt. Ltd. | Apr 2022 – Jan 2023

- Built Hyperledger Fabric networks and implemented chaincode in Golang.
- Integrated blockchain components with frontend applications using React and Web3.js.

- Improved blockchain security and transaction scalability through custom middleware.
- Led smart contract testing, deployment, and upgrade cycles.

Blockchain Developer
QwertyCode Pvt. Ltd. | Jan 2021 – Apr 2022

- Developed Ethereum smart contracts using Solidity for asset management and tokenized rewards.
- Integrated Web3.js with frontend apps for seamless user interaction.
- Managed deployment and upgrades of smart contracts across testnets and mainnet.
- Worked on NFT standards and backend support using Node.js and MongoDB.

Blockchain Developer
Techcospace Pvt. Ltd. | May 2019 – Jan 2021

- Developed Ethereum smart contracts using Solidity for token issuance and vesting.
- Integrated IPFS for decentralized document storage.
- Created user interfaces for interacting with blockchain wallets and tokens.
- Maintained smart contract repositories and documentation.

Key Projects

DeFi Lending Platform
Tech Stack: Solidity, Web3.js, React.js, Node.js

- Developed and audited smart contracts for lending/borrowing functionality.
- Integrated Ethereum wallet features and performed transaction optimization.

NFT Marketplace
Tech Stack: Ethereum, Solidity, IPFS, Next.js, OpenZeppelin

- Created and deployed ERC721 smart contracts with metadata stored on IPFS.
- Designed frontend for minting, listing, and auctioning NFTs.

Supply Chain Blockchain System
Tech Stack: Hyperledger Fabric, Chaincode, Node.js, React.js

- Developed a decentralized application for real-time supply chain traceability.
- Connected IoT devices to blockchain for tracking sensitive shipments.

Token ICO Platform
Tech Stack: Solidity, Node.js, MongoDB

- Built ERC20 token with vesting and distribution features.
- Deployed smart contracts for ICO rounds and whitelist verification.

Certificates

- Ethereum and Solidity: The Complete Developer’s Guide (Udemy)
- Hyperledger Fabric 2.x Network Design & Setup (Udemy)
- IBM Blockchain Foundation Developer (IBM)

- Cryptography and Network Security (Coursera)

Soft Skills

- Blockchain Architecture | Smart Contract Auditing | DApp Design | Agile Collaboration

---

Interests

Decentralized Finance | Web3 Ecosystem | Tokenomics | Blockchain Security

---

Languages

English: Fluent | Hindi: Native
