---

Professional Summary

Full Stack Developer with broad experience in backend development using Golang and frontend/backend development using the MERN stack. Skilled in building scalable APIs, microservices, and secure web applications. Adept at developing RESTful services with Go and Node.js, and delivering dynamic user interfaces using React.js. Experienced in deploying production-grade applications with Docker, Kubernetes, and CI/CD pipelines across cloud platforms.

Education

B.Tech in Electrical Engineering
Krishna Institute of Engineering and Technology, Ghaziabad Graduated: 2015

Technical Skills

- **Languages**: Go, JavaScript, TypeScript, Python
- **Backend**: Golang, Node.js, Express.js, REST APIs, gRPC
- **Frontend**: React.js, Next.js, HTML5, CSS3, Tailwind CSS
- **Databases**: MongoDB, PostgreSQL, MySQL, Redis
- **DevOps** & Deployment: Docker, Kubernetes, GitHub Actions, Jenkins, Nginx
- **Blockchain**: Solidity, Web3.js, Hyperledger Fabric (basic exposure)
- **Cloud & Infrastructure**: AWS, Azure, Firebase
- **Tools**: Git, GitHub, Postman, Swagger, Prometheus, Grafana

---

Professional Experience

Senior Backend Engineer
Vissol Vassutech Pvt. Ltd. | Feb 2023 – Present

- Developed scalable backend services using Node.js and Express.js for enterprise-grade applications.
- Designed and optimized RESTful APIs, ensuring high performance and low latency.
- Integrated PostgreSQL and MongoDB for robust and efficient data handling.
- Deployed services on Azure using Docker and Kubernetes.
- Implemented CI/CD pipelines using GitHub Actions for continuous deployment.

Full Stack Developer (MERN + Go)
TwinsSet Pvt. Ltd. (Apr 2022 – Jan 2023)

- Transitioned from Node.js to Golang for performance-critical modules.

- Maintained React.js frontend with integrated backend in both Go and Node.js.
- Implemented secure APIs and authentication flows.

Blockchain Developer
QWERTYCODE PVT LTD | Jan 2021 – Apr 2022

- Designed and implemented Ethereum smart contracts using Solidity, ensuring secure transaction processing.
- Developed dApps with web3.js and Solidity, integrating IPFS for decentralized storage.

Backend Developer
Techcospace Pvt. Ltd. | May 2019 – Jan 2021

- Developed RESTful APIs using Node.js and Express for multiple web applications.
- Managed backend business logic and connected APIs with MongoDB and MySQL databases.
- Ensured secure authentication and role-based access control in all backend endpoints.

Key Projects

Title-Direct
Tech Stack: Node.js, Express.js, PostgreSQL, Azure, Kubernetes

- Built backend architecture and services for a real estate and mortgage platform.
- Deployed and managed containerized services on Azure Kubernetes Service.

Billing Microservices (Go)
Tech Stack: Go, gRPC, Redis, Docker

- Built scalable microservices for billing and invoicing workflows.
- Integrated Redis caching and implemented middleware for monitoring.

DeFi Platform Backend
Tech Stack: Node.js, Web3.js, Express.js, MongoDB

- Implemented backend logic for DeFi lending and staking functionality.
- Integrated Node.js with Ethereum smart contracts via Web3.js.

Enterprise Dashboard API
Tech Stack: Node.js, Express.js, PostgreSQL

- Created backend APIs for enterprise dashboard and reporting modules.
- Ensured data integrity and access security across multiple microservices.

Certificates

- IBM Blockchain Foundation Developer

- Go Programming Language (Udemy)

- Ethereum and Solidity: The Complete Developer’s Guide (Udemy)
- Hyperledger Fabric 2.x Network Design & Setup (Udemy)
- AWS Certified Solutions Architect
- AI & Machine Learning Specialization (Azure AI)

Soft Skills

System Design | Performance Optimization | Documentation | Agile Collaboration
