Professional Summary

Experienced Backend Engineer specializing in Node.js with over 6 years of hands-on experience in building scalable, secure, and high-performance server-side applications. Adept at designing RESTful APIs, integrating databases, and deploying backend services across cloud platforms. Proven expertise in microservices, DevOps practices, and system optimization.

Education

B.Tech in Electrical Engineering
Krishna Institute of Engineering and Technology, Ghaziabad Graduated: 2015

Technical Skills

- **Backend Development**: Node.js, Express.js, REST APIs, GraphQL, Microservices
- **Databases**: MongoDB, PostgreSQL, MySQL, Firebase
- **Cloud & DevOps**: AWS, Azure, Docker, Kubernetes, CI/CD (GitHub Actions, Jenkins)
- **Security**: Authentication, Authorization, Encryption, Secure API Design
- **Programming Languages**: JavaScript, TypeScript, Python
- **Tools & Version Control**: Git, GitHub, Postman, Swagger

Professional Experience

Senior Backend Engineer
Vissol Vassutech Pvt. Ltd. | Feb 2023 – Present

- Developed scalable backend services using Node.js and Express.js for enterprise-grade applications.
- Designed and optimized RESTful APIs, ensuring high performance and low latency.
- Integrated PostgreSQL and MongoDB for robust and efficient data handling.
- Deployed services on Azure using Docker and Kubernetes.
- Implemented CI/CD pipelines using GitHub Actions for continuous deployment.

Backend Developer
TwinsSet Pvt. Ltd. | Apr 2022 – Jan 2023

- Built and maintained Node.js backend services for blockchain-integrated platforms.
- Integrated backend logic with smart contracts and handled on-chain/off-chain data operations.
- Improved service reliability and response time by optimizing API and database performance.

Blockchain Developer
QWERTYCODE PVT LTD | Jan 2021 – Apr 2022

- Designed and implemented Ethereum smart contracts using Solidity, ensuring secure transaction processing.
- Developed dApps with web3.js and Solidity, integrating IPFS for decentralized storage.

Backend Developer
Techcospace Pvt. Ltd. | May 2019 – Jan 2021

- Developed RESTful APIs using Node.js and Express for multiple web applications.
- Managed backend business logic and connected APIs with MongoDB and MySQL databases.
- Ensured secure authentication and role-based access control in all backend endpoints.

Key Projects

Title-Direct
Tech Stack: Node.js, Express.js, PostgreSQL, Azure, Kubernetes

- Built backend architecture and services for a real estate and mortgage platform.
- Deployed and managed containerized services on Azure Kubernetes Service.

Supply Chain Blockchain Solution
Tech Stack: Node.js, Hyperledger Fabric, MongoDB

- Developed Node.js backend to interface with Hyperledger smart contracts and IoT data feeds.

DeFi Platform Backend
Tech Stack: Node.js, Web3.js, Express.js, MongoDB

- Implemented backend logic for DeFi lending and staking functionality.
- Integrated Node.js with Ethereum smart contracts via Web3.js.

Enterprise Dashboard API
Tech Stack: Node.js, Express.js, PostgreSQL

- Created backend APIs for enterprise dashboard and reporting modules.
- Ensured data integrity and access security across multiple microservices.

Certificates

- IBM Blockchain Foundation Developer
- Ethereum and Solidity: The Complete Developer’s Guide (Udemy)
- Hyperledger Fabric 2.x Network Design & Setup (Udemy)
- AWS Certified Solutions Architect
- AI & Machine Learning Specialization (Azure AI)

Soft Skills

Problem-solving | Backend Architecture | API Optimization | Team Collaboration

---

Interests

Backend Development | Distributed Systems | Cloud Infrastructure
