Senior Backend Engineer | 8+ Years of Experience

Results-driven backend engineer with **8 Years and 3 Months** of expertise in designing and developing **scalable microservices, APIs, and cloud-based applications**. Proficient in **Golang, kubernetes, GCP, and distributed systems**. Passionate about performance optimization, database management, and Development practices.

- ☐ Extensive experience with **Golang, SQL, NoSQL**, and modern backend architectures.
- ☐ Proficient in **Google Cloud Platform (GCP),** AWS, including App Engine, Compute Engine, Firebase, MemCache, Cloud Datastore, and Cloud SQL (MySQL, PostgreSQL).
- ☐ Expertise in **RESTful APIs, gRPC, OAuth, JWT**, and designing scalable **microservices**.
- ☐ Hands-on experience with **Docker, Kubernetes**, and managing distributed applications.
- ☐ Skilled in **RabbitMQ, Pub/Sub, Kafka**, enabling asynchronous event-driven systems.
- ☐ Strong knowledge of **MongoDB, MySQL, PostgreSQL, ElasticSearch**, and database optimization.
- ☐ Deep understanding of **Software Design Patterns, Clean Architecture, and Dependency Injection in Golang**.
- ☐ Strong grasp of **Goroutines, Channels, TDD**, and performance-driven backend development.
- ☐ Proven ability to **architect, develop, and deploy** large-scale, real-time applications. Experience with both **Microservices and Monolithic architectures** in Golang.

EDUCATION

- ☐ **Master Of Computer Science** from University of Pune with **First class**.
- ☐ **Bachelor Of Computer Science** from University of Pune with **First class.**

WORK EXPERIENCE:

- ☐ **Senior Software Engineer | Netcracker Technology (May 2023 – Present)**
  - Architect and develop scalable Golang-based microservices for high-traffic applications.
  - Implement Apache NiFi pipelines for data ingestion and transformation.
  - Optimize PostgreSQL queries to improve API response times.
  - Leverage Docker & Kubernetes for seamless deployments and scaling.

- ☐ **Lead Engineer | Ayopop Technology India Pvt. Ltd (Dec 2020 – Apr 2023)**
    - Designed and developed high-performance APIs for a leading digital payment platform.
    - Integrated message queues (Kafka, RabbitMQ) to handle asynchronous transactions.
    - Led a team of 5+ engineers in implementing scalable, fault-tolerant microservices.

- ☐ **Software Engineer | Scalent Pvt. Ltd, Pune (Jun 2019 – Dec 2020)**
    - Developed GraphQL and RESTful APIs for various fintech applications.
    - Implemented GCP services (App Engine, Compute Engine, Cloud SQL) for cloud-based applications.

- ☐ **Software Engineer | Qwentic Consulting Pvt. Ltd (Dec 2016 – Jun 2019)**
    - Built telephonic and CRM integrations using Golang and Java.
    - Developed secure authentication mechanisms using OAuth and JWT.

TECHNICAL SKILLS:

- ☐ **Programming Languages:** Golang, Java, SQL, AppScript JavaScript, Python
- ☐ **Cloud Platforms:** Google Cloud Platform (GCP)
- ☐ **Operating Systems:** Windows, Linu**x**
- ☐ **Frameworks & Libraries:** Node.js, Kubernetes, Docker, gRPC, GORM, Gorilla, Gin
- ☐ **Databases/Cache:** MySQL, PGSQL, Redis, MongoDB, Elastic Search
- ☐ **Message Brokers:** RabbitMQ, Kafka, Pub/Sub, Cloud Task, SQS
- ☐ **API & Authentication:** RESTful APIs, gRPC, OAuth, JWT,
- ☐ **Version Control:** Git, svn
- ☐ **DevOPs Tool:** Kubernetes, Docker .
- ☐ **Golang Packages/Tools:** GoDep,Consul, GoKit, JWT, GORM, Gorilla Mux etc.
- ☐ **IDE**: Intellij Idea, Goland, Pycharm, Visual Studio Code, Sublime 3

PROJECT DETAILS:

#Project No.1
Project Title: HDS(Historical Data Storage and management system)
Platform: Linux
Technologies: Golang, **PostgreSQL**, Microservice, Redis, **Docker**, **Kubernetes**, **Apache kafka, Apache NIFI,**
Description: The project is developed for managing Historical and archived Data with configurable policies.

#Project No.2
Project Title: Billpayment Network with ONE-API
Platform: Linux
Technologies: Golang, **MySql**, **Microservice**, **Redis**, **Docker**, Kubernetes, **RMQueue**, **Pub/Sub, TaskQueue, GCP,**
Description: The project is developed for a leading digital billing network from Indonesia. The project is developed to provide various Bill Payment Services, Flight, and Train ticket booking platforms to its users over the internet. We basically have B2B and B2C Services using one API concept.

#Project No.3
Project Title: Internet Banking Services
Platform: Linux
Technologies: Golang, **OracleDB**, **Microservice**, Redis, Elastic Search, **Docker**, Kubernetes
Description: The project is developed for one of the reputed banks from India. The project is developed to provide various banking services to its users over the internet. The services include various Login mechanisms. Netbanking, Mobile banking registration etc. This project consists of various microservices that communicate over rest API's. We have also developed strong redis cache layers for API's for caching responses of all dashboard related API's to reduce dashboard loading time.
Some of the microservices are:

- **Login-service** is a service where we have various login journeys like mPIN login, password login , DOB-OTP, net banking, and mobile banking registration flow.
- **Crypto-service** is developed to perform operations related to encryption and description of important data in the system by applying various cryptographic techniques..
- **User-profile-service** is developed to create, read and manage user profile details.
- **Universal-search-service** is developed for high performance searches using ElasticSearch.

#Project No: 4
Project Title: Smart Quotes
Platform: Linux
Technologies: **Golang** (**GORM**), **MySQL**, **Microservice**, Salesforce Integration, **Angular**, Docker
Description:

SmartQuote is a web-based project, lead, and account management system like a CRM; it manages Leads, Contacts, Accounts, Products and Quote. In this portal, we have to integrate the Salesforce API for two way sync between SmartQuote and Salesforce Platforms. This portal is developed in Golang with multiple microservices. In that, we have created microservices for the Lead module, Contacts module, Accounts module, Products module, Quote module, all the modules/microservices are communicating using GRPC

EXTRA-CURRICULAR ACTIVITIES,AWARDS AND MEMBERSHIPS

- State level Seminar on **Big Data & Cloud Computing: Present and Feature** At KTHM College, Nashik.

HOBBIES & INTEREST

- I like to interact with people and love to listen about their life. Different opinions make my mind logical.
- I like reading, Cleanliness, Attending Spiritual and motivational as well as Historical sessions.

PERSONAL INFORMATION

Date of Birth : **10**-04-1993

Language known **:** English, Hindi and Marathi

Nationality : Indian

Marital Status : Married

Permanent Address : At :Vanasagaon Tal: Niphad, Dist: Nashik, Pin:422304.

DECLARATION:

I do hereby declare that all the statements made in these Resume are true and correct to the best of my knowledge and belief.

Place: PUNE 01/12/2024 Shinde Rahul Bhausaheb
